Cancer				
National Cancer Center	December 17, 2013	Fellowships to receive training and experience in molecular genetics and the cellular aspects of cancer biology and tumor immunology. Preference for studies with direct relevance to the diagnosis and treatment of human cancer.	Post-doctoral fellowships from NCC are established at \$40,000 for the first year and \$42,000 in the second year, if renewed.	For applicants under age 35 with less than two years of post-doctoral laboratory experience.
Jane Coffin Childs Memorial Fund	February 3, 2014	Fellowships for young postdoctoral scientists conducting research into the causes, origins and treatment of cancer.	\$50,000/year for 3 years, with an additional \$1,000 for each dependent child. \$1,500 a year allowance toward the cost of the laboratory sponsoring the fellow. \$1,800 for travel to science meetings. A travel award for the Fellow and their family to travel to the sponsoring laboratory.	Applicants should not have more than ONE YEAR of postdoctoral experience. May be citizens of any country, but awards for foreign nationals are only for study in the US.
Ladies Auxiliary to the Veterans of Foreign Wars	March 1, 2014	An opportunity for researchers to devote two years, full-time to making new discoveries about cancer.	2-year \$100,000 fellowship	US citizen. Nominated by PI. Qualified in cancer-related specialty.
Damon Runyon Cancer Research Foundation Fellowship Award	March 17, 2014	Funding for all theoretical and experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies and prevention.	Level 1 (Less than 1 year of postdoc): \$50,000 per year for 3 years + \$2,000 in expenses; Level 2: \$60,000 per year for 3 years + \$2,000 in expenses	MD, PhD, MD/PhD, DDS, DVM; Foreign candidates may apply to do their research only in the United States.

Biomedical Sciences				
NIH Ruth L. Kirschstein NRSA (F32)	December 8, 2013 (new)	NIH F32	Varies	U.S. citizen or permanent resident.
American Heart Association	January 15, 2014	Supports research related to cardiovascular function and disease and stroke, or to related clinical, basic science, bioengineering or biotechnology, and public health problems, including multidisciplinary efforts.	Trainee Stipend/Salary: Commensurate with years of postdoctoral research and clinical experience at time of award activation; stipend totals represent combined salaries and fringe benefits. \$39,200 to \$54,100 (depending on experience); Fringe: \$1,000, Project Support: \$3,000 for travel.	Applicant must have less than five years postdoctoral research training or experience and be a U.S. citizen or permanent resident or have a specified visa type.
NIH Career Development Awards (K awards)	February 12, 2014 (new)	NIH K award	Varies	U.S. citizen or permanent resident.
Women & Minorities				
American Association of University Women - International Fellowship	December 1, 2013	For full-time study or research in the United States to women who are not U.S. citizens or permanent residents. Both graduate and postgraduate studies are supported.	Master's/First Professional Degree Fellowship: \$18,000; Doctoral Fellowship: \$20,000; Postdoctoral Fellowship: \$30,000.	For graduate or postgraduate studies by women who are NOT U.S. citizens or permanent residents.
UNCF/Merck Postdoctoral Science Research Fellowships	December 5, 2013	Fellowships are intended to provide support to African American post-graduates to obtain postdoctoral training or continue to conduct postdoctoral, pre-professional research projects.	A maximum of \$92,000 which consists of a Fellowship Stipend of up to \$77,000 for the award recipient and a Research Grant of up to \$15,000.	Open to African American post-graduates (US citizens).

Women & Minorities cont.				
Burroughs Wellcome Postdoctoral Enrichment Program	Jan. 15, 2014	Supports career development activities for underrepresented minority (URM) postdoctoral fellows whose training and professional development are guided by mentors committed to helping them advance to stellar careers in biomedical or medical research. Meant to supplement the training of postdocs whose research activities are already supported.	A total of \$50,000 over three years to support career development activities.	No more than 36 months of postdoctoral experience or more than five years from his/her Ph.D. Applicants must be URM (i.e. American Indian or Alaska Native, Black or African American, Hispanic, or Native Hawaiian or other Pacific Islander). Applicants must be citizens of the US or Canada.
ASM Career Development Grants for Postdoctoral Women	February 1, 2014	Support for the career development of the candidate by providing funds to travel to a meeting, visit another laboratory, take a course in a geographically distant place, or for other travel to advance the candidate's career. The fields covered by the award are any of those represented by Divisions of the American Society for Microbiology.	A cash award of \$1,200 and a commemorative plaque will be presented. The cash award must be used within a year of its award.	For postdoctoral women with outstanding scientific accomplishments and potential for significant research in the area of microbiology.
